DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Claims 12 and 18-Components E, Q, and W of the compound of formula (I)

which has the following structure

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. Applicant is required to elect a single species for components E, Q, and W of the compound of formula (I) and plant species. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 1616

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

a) Elect a single species for component E, for example E is (C₁-C₆) alkyl. If applicant

elects E is a group of formula (A) , a single species from claim 13 should be elected A1 or A2 or A3 or A4 or A5 and a single species for (R¹)_u. For Example R¹ is H.

b) Elect a single species for component Q, for example Q is (C₃-C₈) alkyl.

c) Elect a single species for component W, for example W is O.

The following claim(s) are generic: 12 and 18.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Pursuant to PCT Rule 13.2 and PCT Administrative Instructions, Annex B, Part 1 (f)(I)(B)(2), the species are not art recognized equivalents. In addition, the special technical feature of the

claims is the compound of formula (I)

. WO 99/21845

teaches pharmaceutical compositions comprising a cell cycle control agent for the
formula (I)

(I)

wherein R¹ is a substituted or unsubstituted group

selected from C₁₋₆-alkyl, C₁₋₆ alkenyl; C₁₋₆ alkynyl.... (see page 4, lines 12-29-page 5, lines 1-3). R² is a substituted or unsubstituted: carboxylic or heterocyclic, monocyclic or fused or non fused polycyclic ring structure (see page 5, lines 4-19). The compounds of formula (I) of WO 99/21845 read on the compound of formula (I) of the instant application, wherein E is (C₁-C₆) alkyl, (C₂-C₆) alkenyl, (C₃-C₆) alkynyl.....and Q is (C₃-C₈)cycloalkyl, or aryl or heterocyclyl. These elements cannot be a special technical feature under PCT Rule 13.2 because the elements are shown in the prior art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of a species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

No telephone restriction was made because the restriction is complex.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is reminded in order for the election of species requirement to be complete an election of a single species from the following species: E, Q, and W of the compound of formula (I).
